

## GREEN DIRECTORIES AT JETWING HUNAS FALLS, JETWING BEACH, JETWING LIGHTHOUSE AND JETWING VIL UYANA

Jetwing Beach, Jetwing Vil Uyana and Jetwing Lighthouse have been involved in various activities within each hotel towards environmental awareness. It includes many initiatives from changing to energy saving bulbs where possible, to having a program to switching off lights, to discontinuing the use of silli silli bags in the hotel, to conducting training classes for the village schools and the associates at the hotel to composting of waste to using grey water for the watering of gardens, to using bio degradable chemicals in our laundries and kitchen wash ups to using natural insect repellants instead of aerosol cans of chemicals to colour coding crates in the kitchens and many more. We have now begun documenting these activities and are gaining wide recognition as a environmentally conscious hotel group. Our 'Green Directories' have also become the text book for environmental awareness at a series of seminars conducted by a well wisher in Germany who spent sometime studying and working in Sri Lanka.
